

WE ARE A SINGLE-FAMILY OFFICE

We are a **leading Canadian family office**, actively investing our own capital and operating knowledge in a diverse group of companies and investments. Our intention is to **build and hold our investments intergenerationally** to create a lasting impact on the lives of our partners, our employees, our families and our community.

Our office, based in Vancouver, combines **over 30 years of transaction and operating experience**, having made investments in **over 80 private companies** in the manufacturing, distribution, business services, food, real estate, private equity, and other industries.

DIRECT INVESTING SINCE 1996

Tricor Pacific Capital was **established in 1996** as a private equity firm investing both its own and institutional capital in middle-market companies across North America. **Under the leadership of Rod Senft**, Tricor managed four separate funds, with total equity capital of \$1.2 billion under management.

Since 2015, we have been **investing only our own capital as a family office**. In that time, we created Founders Group of Food Companies, Areva Living, and **acquired over 20 operating companies and real estate properties** while continuing to manage our pre-existing investments.

“Demonstrated track record, with a genuine reputation as the partner of choice”
